

CALL FOR PARTICIPATION IN MULTICULTURAL ACTIVITY FOR FOREIGN STUDENTS.

One of the opportunities that most students expect when travelling to a different country is to really get to know the new culture. Getting to know a new culture involves exchanging different points of view, opening to new concepts and different ways of living.

La Fundación Cruz de los Ángeles is a non-profitable national organization specialized in social intervention. La Fundación Cruz de los Ángeles runs a bilingual programme in which all the children and young people immersed in it can learn a new language and hence a new culture. Knowing the importance of multiculturalisms, we would like to provide all international students willing to be immersed in a multicultural exchange the opportunity to participate in our next volunteer experience.

We would like to do an open doors event and invite you to actively participate in our annual meeting. This meeting will take place in late May or early June- before the end of the current academic year-.

This meeting involves our children and young people coming from different regions and participating in our language immersion Project and of course YOU. We would love that you as an international student might become a volunteer and be able to support and actively participate in all the activities enhancing thus the communication and use of English with our children and teenagers.

We would like to have a global perspective where mutual understanding and different cultures unite by sharing experiences, music, art, food and games. We believe that by sharing our different points of views we will be able to unite different cultures. We think that this initiative supports internationalization and Europeanization. Through collaboration and active participation in the different activities we hope to create new face to face and virtual relations. The fact of sharing intercultural experiences supports professional and personal development of young people giving them a new chance to explore the reality of an international world.

With this experience, we would like to organise an emotive, dynamic and energetic cultural meeting, showing the importance of enrichment and mutual respect between cultures. We firmly believe this meeting will provide some good experiences and memories to bring back home.

If you are interested, please contact Fundación Cruz de los Ángeles (reference person: Ruth Vallina Pascual), phone 618 654 218 or via the following email cd018@cruzdelosangeles.org and send us this form with your data.

See you there!

APPLICATION TO PARTICIPATE IN MULTICULTURAL ACTIVITY

PERSONAL DATA	
NAME	
DATE OF BIRTH	
COUNTRY OF ORIGIN	
STREET ADDRESS	
CONTACT PHONE	

We want to make sure we cover all your needs. This means that the participation in this voluntary event includes food and transportation costs throughout the day. At the end of the event all international students will be receiving a certificate for participating in it.
