

Cine y Educación

Didactic proposal for Infants and Primary children
organized by Facultad Padre Ossó and Agua de
Borines

The cinema is a powerful educational tool, which conveys concepts and values in an easy and accessible way. That's why it is fundamental to know the audiovisual language, to understand the messages the director wants to get across, and be able to analyse them.

We propose to you an activity through which you can work:

- The education in value
- The audiovisual language

This activity is planned in three phases:

- 1- Watching a short film.
- 2- Making of your own movie.
- 3- "Agua de Borines" Contest

Organised by
Facultad Padre Ossó
and Agua de Borines

www.aguadeborines.es

1- WATCHING A SHORT FILM

You can choose one of our recommendations or any other of your choice:

[Algarabía Animación](#)

[Unesco Uruguay. El cuidado del agua](#)

[Fundación Biodiversidad](#)

[Bienvenidos](#)

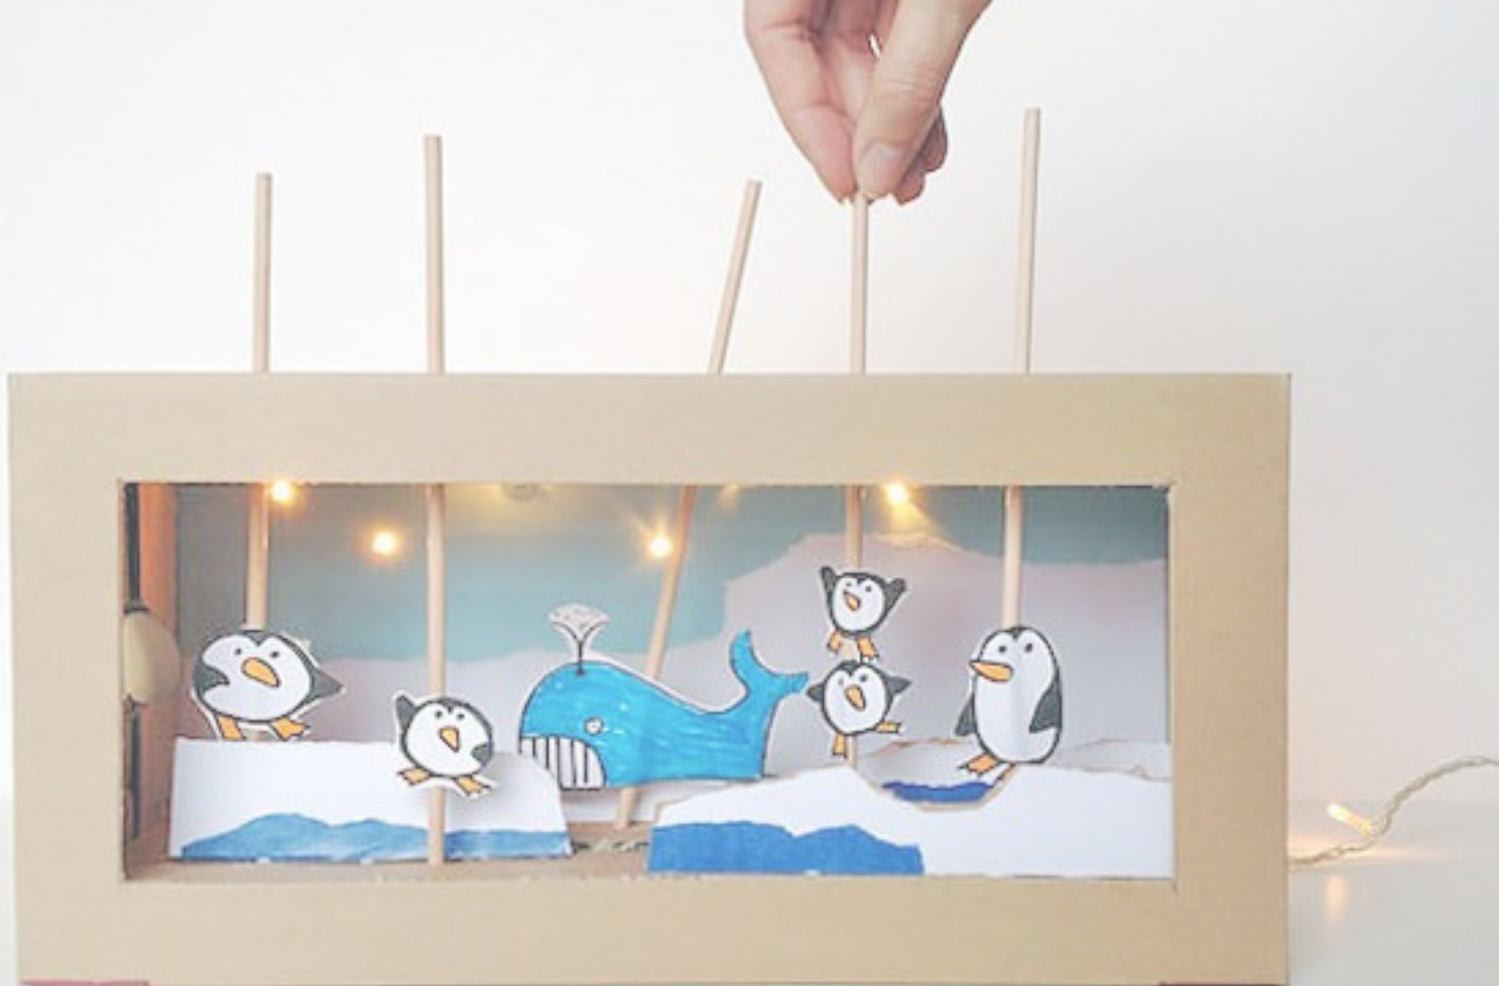

REFLECTION IN AN ASSEMBLY

- What was the problem?
- What solutions did the characters propose? Did it work?
- What was the best solution? Why?
- What would you have proposed?
- What's the message of the film?

2- WORK IN THE CLASSROOM: MAKE YOUR OWN MOVIE.

You will need:

- A cardboard box.
- Cello tape.
- Scissors or a cutter.
- A ruler and a pencil.
- Colouring crayons, painting, wool, plasteline... or any other material to elaborate your characters.

You'll find in the kit:

- Backdrops.
- Support for each character.
- A clapboard.
- A sign for 'The End'.
- A display front "cinema room".

Prepare the characters

You can make them in any material or simply cut and colour from the geometric shapes, which come in the kit.

Write a brief screenplay

You can use the action of the short film you previously watched or imagine your own story.

Prepare the set

Cut a rectangle (27x13cm) on the lid, through which we're going to see the stage and a rectangular slot (29x2cm) on the lateral part of the box (that which will be on the top of the box), to insert the characters and move them from the top.

Besides, you can decorate your box as you wish, or use the display front "cinema room".

The show can start!

Insert the characters in the box place the stage at the back, through the slot you had previously cut, and the show can start!

You can use the clapboard to get started, and the sign "The End" when the movie is finished. You'll also find them in the kit.

Film and screen

Film the performance with a video camera or a mobile phone, and later on, screen your work on the digital board for your class, if possible.

If you've got several movies, you can organize your own film festival!

Send us your movie. We'll be delighted to upload it on the website of the Project!

3- AGUA DE BORINES CONTEST

Participate

Send us a picture of your favourite scene, and the winner will appear on a special edition of a “Agua de Borines”.

Please keep the box, we will need it in the final edition.

Full contest rules available on www.facultadpadreosso.es/educarte

Rewards

- The 5 first qualified will participate to a didactic workshop about Cine and Arts & Craft, aimed for pupils from Infants and Primary of the school.

- about 50,000 bottles of mineral water of 750 ml with the winning label (*).

Besides, the winning work will receive:

- A Diploma in recognition of the creation of the label summer special edition 2019.
- A guided visit of the Agua de Borines facilities for the winning class.
- 12 bottles, special edition, with the winning label, if it is finally manufactured.

* Provided that the design and management team of Agua de Borines consider the final result suitable for the product.
